

香港大學民意研究計劃 The University of Hong Kong Public Opinion Programme

**Opinion Survey on the Public Ranking of Universities in Hong Kong 2015** 

**Presentation of Findings** 

Frank Lee and Robert Chung HKUPOP

9 July 2015

# Background

- Commissioned by Media Education Info-tech Co. Ltd. (MEIT, which owns "Education18.com") <u>since 2001</u>, this is the 15<sup>th</sup> survey in the row.
- Key objective is to gauge the general <u>public's perception</u> of eight institutions of higher education funded through University Grants Committee (UGC) plus Hong Kong Shue Yan University and Open University of Hong Kong, as well as their opinions on qualities of university students.
- The survey questionnaire was designed by HKU POP after consulting MEIT.
- Fieldwork and data analysis conducted independently by POP, but <u>final rankings</u> wholly or partly based on perception figures are <u>compiled independently by MEIT</u>.

## **Contact** Information

Date of survey:	May 22 – June 5, 2015
Target population:	Cantonese-speakingpopulation of
	Hong Kong of age 18 or above
Survey method:	Random telephone survey by real interviewers
Sample size:	1,201 successful cases
<b>Response rate:</b>	65.6%
Sampling error:	Less than 1.4%
Weighting method:	Data adjusted according to the gender-age distribution of HK population at the 2014 year- end and the educational attainment (highest level attended) distribution collected in the 2011 Census

## **Public Ratings of Universities**

\* Recognition rate = No. of raters/total sample

Valid samples (2015) : 934-1,110

Changes being statistically <u>significant</u> at 95% confidence level.

### **Public Ratings of University Heads**

Changes being statistically **significant** at 95% confidence level.

Valid samples (2014) : 542 – 1,015

Remark: The position of Principal for HKSYU was vacant during the survey period.

### **Perceived Deficiencies of University Students**

Changes being statistically <u>significant</u> at 95% confidence level. Note: top 8 responses are shown here.

#### **Most Preferred University Graduates**

[Only for respondents involved in recruiting new staff; base = 195]

Sampling error at 95% confidence level: +/-7.2%

#### **Reasons for Graduate Preferences**

[Only for respondents involved in recruiting new staff and with preferences on university graduates; base = 132]

Valid samples (2015): 131 Sampling error at 95% confidence level: +/-8.7%

Note: top 9 responses are shown here.

### **Public Ratings of Universities**

Year

# **Notes of Caution**

- Findings only reflect <u>general public perception</u> of the ten institutions and their leaders, they are not results of objective appraisals or professional assessments.
- <u>Absolute ratings (i.e. 0-10)</u> are used in the key questions, they are methodologically more powerful than relative rankings, because the score received by each institution in any one year is independent of the scores of other institutions, or its own score in another years.
- Sequence of prompting respondents with the name of ten institutions was <u>randomly rotated</u> to avoid possible bias.
- All respondents have been told at the beginning of the interview that POP was an <u>independent research body</u>.
